SUMMARY

Full-Stack Developer with 1+ year of experience in building production systems for e-commerce platforms generating ₹175Cr+ in annual sales. Specialized in **Next.js**, **React**, and **Strapi CMS** — with hands-on experience in AWS infrastructure, **GA4/GTM** analytics engineering, and Shopify app development. I am passionate about AI agents and am currently pursuing the Gemini Enterprise Agents development course to deepen my expertise in this field.

WORK EXPERIENCE

Full-Stack Developer | [devxlabs.ai](#) May 2025 – Present

- **Leading the frontend powering ₹175Cr+ in commerce** : Own the frontend end-to-end — architecture, performance, CMS integration, and analytics — for an e-commerce platform serving **500K+** customers and ₹175Cr+ in sales. *Next.js · React · TypeScript · Strapi CMS*
- Diagnosed and resolved a critical **GA4** data corruption issue where source - a reserved **GA4** keyword was being overwritten by custom event parameters, silently distorting **UTM attribution** and conversion data; reduced event error rate by **90%**. Rebuilt the complete checkout funnel tracking (address, pincode, payment, drop-off) via GTM, restoring accurate attribution across all acquisition channels. *Google Analytics 4 · Google Tag Manager · UTM Attribution · Funnel Tracking*
- Proactively audited **AWS** infrastructure, identified idle EC2 instances and redundant CodePipeline services burning client budget — directly reducing cloud spend by **15–20%**. *AWS EC2 · CodePipeline · Cost Optimization*
- Independently root-caused a recurring third-party API failure that stalled the entire team across multiple attempts; authored a clear RCA and resolved the blocker, restoring project momentum. *API Debugging · RCA · Cross-team Collaboration*
- Engineered a cart-aware upsell engine surfacing highest-savings recommendations at add-to-cart, driving measurable revenue lift tracked via **GA4** event funnels. *Next.js · React · Strapi · Google Analytics*
- Architected a serverless blog feedback pipeline on AWS — real-time rating capture and display — fully provisioned via Terraform. *AWS Lambda · API Gateway · DynamoDB · Terraform · Node.js*
- Refactored a cluttered legacy Cart and Checkout codebase end-to-end, reducing code complexity by **50%** and delivering a seamless purchase experience across multiple campaign pages. *React · Fynd CMS · TypeScript*
- Independently built and launched a production **Shopify App** from scratch — zero prior experience — navigating the App Store review process and coordinating internal and client teams through go-live. *Remix · Shopify Polaris · React · Shopify App Store*
- Improved website performance by **40–50%** through custom viewport-aware lazy loading hooks for video-heavy sections, directly boosting **Core Web Vitals** scores.

Internship | devxlabs.ai Aug 2024 – Jun 2025

- Delivered **user-centric features** by translating Figma designs into pixel-perfect, mobile-first UI components, prioritizing accessibility and **seamless user experiences**.
- Applied **clean coding principles** and full-stack debugging to refactor legacy codebases, improving readability by 50% and ensuring application stability.
- Built reusable Shopify→Strapi and Strapi→Strapi migration scripts adopted team-wide, cutting data transfer time by **75%** and eliminating manual effort across projects. *Node.js · Strapi · Shopify GraphQL API · JavaScript*

Freelance Shopify Developer for B2B E-Commerce Mar 2024 – Jul 2024

- Developed and launched a Shopify B2B e-commerce website, implementing responsive design, user authentication, breadcrumbs, and SEO optimization to drive engagement and organic traffic.

SKILLS

- **Frontend Development:** React, Next.js, Remix, Redux Saga, Tailwind CSS, Typescript
- **Backend Development:** Node.js, Express.js, GraphQL, REST
- **Databases:** MongoDB and MySQL
- **Cloud & DevOps:** AWS (Lambda, API Gateway, DynamoDB), Terraform (Infrastructure as Code)
- **CMS & Tools:** Git, API Integration, Responsive Design, Troubleshooting, Strapi CMS
- **Soft Skills:** Effective Communication, Problem-Solving, Cross-functional Collaboration, Proactiveness
- **AI Tools:** Claude, ChatGpt, Cursor Agent, Copilot, Gemini, Warp
- **Analytics:** Google Analytics 4 (GA4), Google Tag Manager (GTM), UTM Attribution

ACHIEVEMENTS

- Achieved **AWS Cloud Practitioner Certification**
- Runner-up in **Hack The Tank 2.0 SVNIT HACKATHON**
- Received grant of 50,000 in **Idea-Pitching SSIP** event
- Secured 3rd position in **Web-Wave college event**

EDUCATION

Bachelor of Technology in Information Technology

Sarvajanik College of Engineering and Technology, Surat, Gujarat

Sep 2021 – Jun 2025

- Secured 9+ CGPA Score in all Semesters.
